DETAILED ACTION

Election/Restrictions

This application is in condition for allowance except for the presence of claims 8-15 directed to species non-elected without traverse. Accordingly, claims 8-15 have been cancelled.

Allowable Subject Matter

Claims 2-5, 7, and 16-18 are allowed.

The following is an examiner's statement of reasons for allowance: regarding independent claims 16-18, the Examiner agrees with Applicant's arguments. Regarding independent claims 16-18, the prior art fails to teach or fairly suggest, in addition to the accompanying features of the claims, an optical transmission line construction method based on evaluation characteristics of the transmission line itself, wherein when the results of the evaluation of the optical fiber are desired, the optical fibers are desired, the optical fibers are connected to construct a desired transmission line, and when any one of the results of the evaluation of the optical fiber is not desired, another optical fiber is selected to perform an evaluation of the other optical fiber and is preformed in order to construct the desired optical transmission line. Claims 2-5 and 7 are allowable by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
